

Partners in Sexual Health (PSH) is a national evidence based, non-profit public benefit organisation that provides Sexual and Reproductive Health & Rights (SRHR) services – including HIV/AIDS services - to men, women and particularly the youth. Our vision is an empowered society on SRHR in South Africa.

The Amplify Change Project aims to contribute to positive changes at AU, SADC and national levels, including in SRHR, CSE policies and laws and defend progressive policies and laws from attacks. The project will be directly implemented in eight (8) Southern Africa countries to ensure more effective domestication and monitoring of SRHR and CSE policies and commitments.

The Project will be jointly implemented by a coalition of youth serving SRHR organisations and Faith organisations for a more effective domestication of the Maputo Plan of Action and ESA commitments. The following vacant position is available.
